

# Creat a makedown file for manual of our website

Our website provides electronic medical record for cancer patients and physicians by allowing patients to log their daily symptoms and produce longitudinal summary reports. Cancer patients usually receive multiple modalities of treatment, such as surgery, radiation, and chemotherapy. With our website, patients and physicians can review and re-narrate previous electronic medical record conveniently. This website user manual gives an introduction to how to use this website.

## 1. Open the website

2. If you use it for the first time, please click **Sign Up Now** to register. If you already have an account, please log in as patients or physicians with Email and password.

by Shennong Info Tech

- When log in as a patient, we can add electronic medical record by first selecting a date and "duration of symptoms".

Appointment

Patient

Symptom Graph

Patient / symptom

option date

2019-04-2

Duration of symptoms

morning

at noon

evening

afternoon

Shenlong Info Tech

Then select "symptoms" and "pain degree". The pain degree ranges from 1 to 10. If the existing symptoms do not include your symptoms, you can input symptoms by yourself by clicking "add". After "submit" it, the record will be saved in the account.

Patient / symptom

症状内容

☒ Nausea pain degree: - 3 +

☐ Vomiting pain degree: - 0 +

☒ Diarrhea pain degree: - 5 +

☐ Fatigue pain degree: - 0 +

☐ Hair loss pain degree: - 0 +

☐ Numbness Select parts pain degree: - 0 +

☐ Bruising Select parts pain degree: - 0 +

☐ Skin changes Select parts pain degree: - 0 +

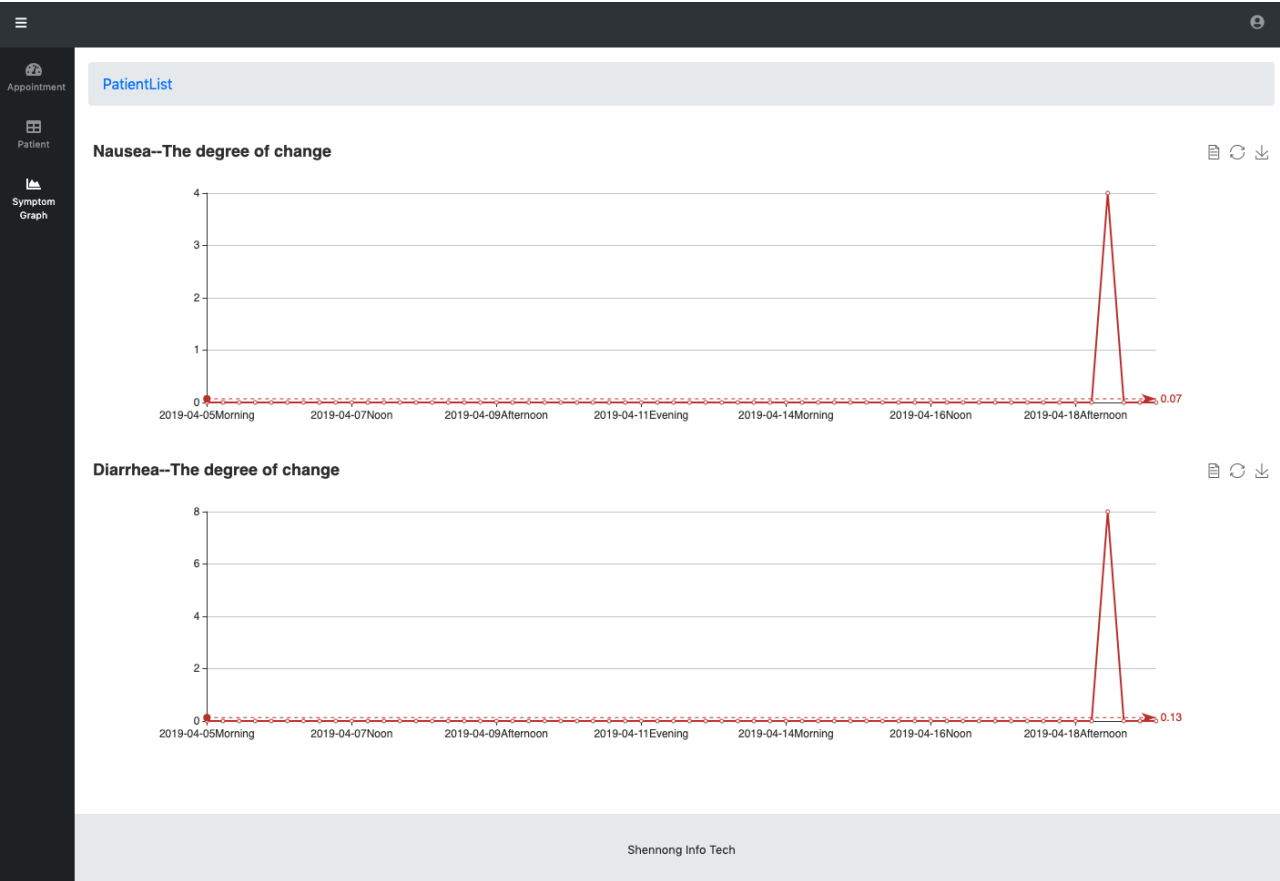

☐ Pain Select parts pain degree: - 0 +

Add

Submit

- In the left panel, we can select "Symptom Graph" to review the summarized data in figures, it can show the trend of degree for symptoms. There are three functions in the upper right corner for each figure, they can show original data, restore data and save figures

respectively.

5. In addition, there is an "appointment" function in the upper left part. By clicking it, you can add time for appointment with physicians. You can also search from the records by typing key words. The table below shows the existing appointments if there is any.

The screenshot displays the 'appointment' interface. It features a sidebar with navigation options: Appointment, Patient, and Symptom Graph. The main content area shows an 'appointment' section with a search bar and an 'Add' button. Below this is an 'appointment Table' with a search bar and a table of existing appointments. The table has columns for Id, Appointment time, and Add time. The table shows two entries: Id 3 with Appointment time 04/19/2019 7:37 PM and Add time 2019-04-19 11:37:08, and Id 4 with Appointment time 04/19/2019 7:37 PM and Add time 2019-04-19 11:37:08. The table also includes a 'Showing 1 to 2 of 2 entries' message and 'Previous', '1', and 'Next' navigation buttons.

Id	Appointment time	Add time
3	04/19/2019 7:37 PM	2019-04-19 11:37:08
4	04/19/2019 7:37 PM	2019-04-19 11:37:08

6. Finally, patients can log out from the system by clicking the icon in the top right of the page.  
7. For physicians, they can log in as a doctor and see the information of all the patients they manage. For all the patients, their name, email, latest appointment time, age and cancer

type. They can also search among all the entries.
